City of Miami Shelter Program Proposal

Submitted to the SEOPW CRA by Camillus House, Inc.

Program Description:

Camillus House has successfully managed and operated the City of Miami Emergency Shelter Program since 2016. The program has historically supported 75 emergency shelter beds and associated services for street homeless referred by the City of Miami Police Department, and for FY 2022-23 will be moving to 100 beds. Emergency shelter is a housing and services program that provides a place to sleep, meals and case management services to homeless individuals. This request to the Southeast Overtown/ Park West CRA is for \$250,000 to cover the cost of operating 23 of the 100 beds at a cost of \$30 beds per day. The program is further supported by the Downtown Development Authority, OMNI CRA and from City of Miami general funds.

Background

In order to continue its commitment to assist homeless persons within its jurisdictional boundaries, and its desire to comply with the Pottinger Settlement Agreement, the City of Miami contracted with Camillus House to secure emergency shelter beds at our main facility, located at 1603 NW 7th Avenue, Miami. With the overturn of Pottinger, Camillus continues to work with the City and the City of Miami Police as well as City of Miami Outreach to continue the previously mandated services as a known best-practice in addressing issues of the on-street homeless.

Under the City of Miami Shelter Bed Program, ten (10) beds are available for 24-hour placements, and ninety (90) beds will be available for individuals who request additional services (e.g. Extended Stay Beds). Clients are placed in this program by City of Miami Police officers and are homeless individuals coming primarily from areas with the highest concentration of homelessness within the City, including the area encompassing the SEOPW CRA.

The program has historically been funded through a partnership with the City of Miami and its affiliates the Miami Downtown Development Authority (DDA) and the OMNI CRA. The funding commitments are as follows:

1. City of Miami: \$558,550
2. OMNI CRA: \$250,000
3. DDA: \$40,000

Through this proposal, Camillus House is requesting a SEOPW CRA contribution in the amount of \$250,000. This funding is essential to ensure the expansion and a continued level of bed availability for the City to provide emergency housing placements, in particular for City Police. At present, there is limited daily bed availability in all homeless shelters, with average wait times for City of Miami Homeless Outreach placements between two-three weeks.

Services Provided:

Camillus House provides the following services to homeless persons referred to the program which will include, but are not limited to:

- a. To the extent possible, make available lower level beds (when bunks beds are present) or regular single beds to facilitate access for persons with disabilities;
- b. Up to three (3) meals a day;

- c. Basic case management, information, and/or referral to ancillary services (i.e., independent living skills preparation, etc.);
- d. Access to basic health, substance abuse, and/or mental health screening on a voluntary basis;
- e. Participation in the other routine services of the Camillus House Day Center program, including but not limited to, access to: showers, clothing exchange, toilet facilities, mail room, library, computers, electrical outlets, telephones, socialization, and other recreational activities;
- f. Assistance to receive entitlement benefits (i.e., SSI, VA, TANF, Medicaid and other entitlements), referral to educational, recreational and vocational services as appropriate, and referral to transitional and/or advanced care housing;
- g. Camillus provides the following amenities to homeless persons referred to the Program:
 - i. Space sufficient to accommodate 100 beds including 23 SEOPW supported beds;
 - ii. Organized sleeping arrangements;
 - iii. Personnel to provide necessary care;
 - iv. Functioning restrooms;
 - v. Electricity to provide light;
 - vi. A potable water source or space to accommodate water;
 - vii. Staff personnel adequate to maintain a safe environment at the facility;
 - viii. Adequate supplies necessary to comply with all terms of this Agreement;
 - ix. Appropriate medical care and supplies when necessary, and within the scope of the agency’s competence, in its sole discretion;
 - x. A dog kennel;
 - xi. Personnel property storage; and
 - xii. Basic personal hygiene products available at no cost, such as soap, shampoo, tooth paste, toothbrush etc.

Reporting:

Camillus House provides the City, DDA and can provide to the SEOPW CRA with monthly reports detailing:

1. Total number of persons served
2. Average monthly and Daily Bed Vacancy
3. Average length of stay
4. Length of stay by participant
5. Outplacement Outcomes

New Washington Heights CDC.

New Washington Heights Plan of Action for reopening post COVID-19.

New Washington Heights CDC will be following all City of Miami, Miami Dade County, CDC, and Florida Department of Health guidelines regarding following Social Distancing.

Plan of Action

- Meet with the planning team to discuss the emergency operations plan.
- Establish relationships with key community partners and stakeholders.
- Promote the daily practice of everyday preventive actions.
- Provide COVID-19 prevention supplies to event staff and participants.
- Space all Tents at least 6 Feet apart from each other.
- Have social distancing markings on the floor.
- Promote messages that discourage people who are sick from attending events.
- Identify a space that can be used to isolate staff or participants who may become ill at the event.
- Identify actions to take in the need to postpone or cancel events.
- Update and distribute timely and accurate emergency communication information.

Meet with the planning team

Emergency operations plans will be discussed and determined on how they may impact aspects of our events, such as personnel, security, services and activities, functions, and resources. We will work with the planning team to prepare for the key prevention strategies outlined in this guidance. A contingency plan will be developed that will address various scenarios which may be encountered during a COVID-19 outbreak.

Establish relationships with key community partners and stakeholders.

Form key relationships for events including the Florida Department of Health, community leaders, faith-based organizations, vendors, suppliers, hospitals, hotels, airlines, transportation companies, and law enforcement. Collaborate and coordinate with them on broader planning efforts. Contact the Florida Department of Health for a copy of their outbreak response and mitigation plan for the community. Participate in community-wide emergency preparedness activities.

Promote the daily practice of everyday preventive actions.

Use health messages and materials developed by the CDC or the Florida Department of Health to encourage event staff and participants to practice good personal health habits. Signs (physical and/or electronic) will be displayed throughout the event to provide frequent reminders to participants to engage in everyday preventive actions to help prevent the spread of COVID-19.

These include:

- Staying home when you are sick, except to get medical care.
- Cover your coughs and sneezes with a tissue, and then throw the tissue in the trash.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing. If soap and water are not available, use hand sanitizer that contains at least 60% alcohol.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Clean frequently touched surfaces and objects daily.
- Handshakes and “high-fives” are often exchanged at meetings and sporting events and these can be ways in which COVID-19 can be transmitted from person to person. As a way of decreasing the social pressure to engage in these common behaviors, signs will be displayed (physical and/or electronic) that discourage these actions during the gathering.

Provide COVID-19 prevention supplies to event staff and participants.

- Prevention Supplies will be available for event staff and participants, such as hand sanitizing stations that contain at least 60% alcohol, tissues, trash baskets, disposable facemasks, and cleaners and disinfectants.
- Routinely clean and disinfect surfaces and objects that are frequently touched.

Consider alternatives for event staff and participants who are at increased risk for complications from COVID-19.

Currently, older adults and persons with severe underlying health conditions are at increased risk for severe illness and complications from COVID-19. Organizers will reassign duties for higher-risk staff to have minimal contact with other persons. People in higher-risk groups should consult with their healthcare provider about attending events.

Promote messages that discourage people who are sick from attending events.

This will include electronic messages sent to attendees prior to attending the event as well as messages requesting that people leave events if they begin to have symptoms of COVID-19, which include fever, cough, and shortness of breath. Attendees will be encouraged to seek medical advice promptly by calling ahead to a doctor’s office or emergency room to get guidance.

An area will be designated and can be used to isolate staff or participants who may become ill at the event.

A space will be designated for staff and participants who may become sick and cannot leave the event immediately. We will work with partners, such as local hospitals, to create a plan for treating staff and participants who do not live nearby. If any staff member or participant becomes sick at an event, they will be separated from others as soon as possible.

Event rescheduling.

We will work closely with local public health officials to assess local capacities in the area. During a COVID-19 outbreak, resource limitations among local healthcare systems and/or law enforcement can influence the decision to postpone or cancel your events. If possible, we will plan alternative ways for participants to enjoy the event.

Emergency communication information.

Everyone in our chain of communication will be identified and systems will be established for sharing information with them. Up-to-date contact information for everyone in the chain of communication will be maintained. Marketing platforms will be used to help disseminate information. Key community partners and stakeholders will be updated regularly.

Potential language, cultural, and disability barriers associated with communicating COVID-19 information to event staff and participants will be addressed.

Information will be shared and will easily be understood by everyone attending the events.

Follow-up after a COVID-19 Outbreak has ended

A COVID-19 outbreak could last for a long time. When public health officials determine that the outbreak has ended in our local community, we will work with them to identify criteria for scaling back COVID-19 prevention actions at your events. Base the criteria on slowing the outbreak in our local area.

- We will evaluate the effectiveness of our emergency operations and communication plans
- Gather feedback from event staff, participants (if possible), community partners, and stakeholders to improve plans. Identify any gaps in the plans and any needs you may have for additional resources.
- Look for ways to expand community partnerships. Identify agencies or partners needed to help prepare for infectious disease outbreaks in the future and try to add them to our planning team.

James McQueen, Executive Director
 Southeast Overtown/Park West
 Community Redevelopment Agency
 819 N.W. 2nd Avenue, 3rd Floor
 Miami, Florida 33136

Dear Mr. McQueen,

Transition, a nonprofit 501(c)(3) organization located in the heart of Overtown, mission is to assist under-served residents of Miami Dade County in becoming gainfully employed. Transition provides clients with workforce readiness training, career exploration, job placements, occupational skills training and pro-active coaching.

Transition targets its efforts towards assisting youthful offenders, returning residents, homeless, disabled persons, veterans and low-income individuals as well as others facing various employment barriers in the Overtown community. It is the agency's goal to remain pro-actively engaged with clients and to ensure they succeed in satisfying job performance standards as well as adopting additional life skills to remain financially stable and personally self-sufficient.

In the Fall of 2019, Transition received financial support from the Southeast Overtown/Park West C.R.A. which allowed us to continue offering reentry services to the Overtown community. Much-needed job development and training, referrals and placement services were provided. That year over 200 employment placements were made! However, our greatest work and impact was yet to come! During the Spring of 2020 our world shut down due to the COVID-19 pandemic. Thanks to the support of the Southeast Overtown/Park West C.R.A., we were prepared to help our community! As a Community Partner of the Department of Children and Families, Transition assisted hundreds of residents apply for food stamps and unemployment. While most non-profits closed their doors for months—ours remained opened, closing for only 10 weeks! As “front-line” workers we partnered with Community Partners and distributed boxes of food and hot meals from our office to Overtown residents. During these difficult and dark days, Transition assisted over 253 participants become employed. We could not have done this without the support of the Southeast Overtown/Park West C.R.A. Each year Transition provides services to over 4,000 residents. Overtown residents depend and rely on our services each day and we are honored to provide them!

Recently, Transition has partnered with Empowerment Zone Reentry Initiative (EZRI) to expand existing employment services by engaging pre-release and post-release participants with holistic

case management and psychosocial support. In addition, Transition partners with Miami Dade College to provide free Digital Education classes to Overtown residents and thanks to the Southeast Overtown/Park West C.R.A. and Miami Dade College we offer Certification in Construction Trades Program. Community Partners, Three Hundred Letters, Inc. help therapeutic support and childcare services to participants who qualify, and the Florida Rights Restoration Coalition (FRRC) help reduce prison fees incurred by participants to restore their voting rights. For over 15 years, Transition has partnered with Miami-Dade County Department of Corrections and Rehabilitation to provide Workforce Readiness Training for their Boot Camp Re-entry Program. Transition has almost 50 years of experience in positively impacting the lives of Miami-Dade residents.

We kindly request the Southeast Overtown/Park West C.R.A. to provide a grant in the amount of \$292,060 to support our “**Adult Employment & Training Program.**” This grant that will assist our efforts to reduce recidivism and empower Overtown residents.

Immediately below is our proposed budget supporting our request. What follows that is a description of our programs, curriculum, programmatic statistics, brochure, and pictures.

We stand ready to answer any further questions. We look forward to hearing from you soon.

Sincerely,

Stephen Gilmore

Transition

Changing Lives... One Job at a Time!
Leaders in Assisting Previously Incarcerated People

Transition, Inc. has a history of providing job development, training, referrals, and placement services in South Florida to previously incarcerated people as well as non-offenders. We take pride in delivering comprehensive programs that positively impact our communities.

While Transition has a long-term proven success with our core mission of helping previously incarcerated people find and maintain meaningful, gainful employment, we have expanded beyond by providing “wrap-around” services, including GED preparation, transportation assistance, food stamps, and almost everything else short of housing. It is our experience that the participants we serve, and the other under-served communities we have come to serve, including troubled/disassociated youth, homeless persons, and veterans, have distinct, additional needs that must be filled for them to be able to undertake a meaningful opportunity for employment. Our clients do not have the time or bandwidth to make multiple appointments with different agencies to obtain other support.

We have found that when we refer people out for these services, the perception (and the reality) is we are not truly assisting them but, instead, sending them to a sea of red-tape, bureaucracy, and time and logistics sinks. On the other hand, when we have developed a positive rapport with our

clients (we have a knack for this), and then provide the range of assistance needed in a “one stop” format, we have the best opportunity to effectuate our core mission: helping them get and maintain employment.

Transition will provide the following services to the residents of Overtown:

Workforce Readiness and Employability Skills Workshops

Workforce readiness is a necessary component in searching for employment. In today’s competitive economy, it is critically important that job seekers know how to explore career options, research job opportunities and apply for jobs; know how to communicate their skills and competencies; know how to present themselves in the very best light during a job interview; know how to prepare business documents including a resume, cover letter and thank you letter; know how to obtain required documentation for work authorization; and know how to listen attentively, follow instructions, and complete work assignments to distinguish themselves with supervisors and associates.

Our Placement Specialists help participants increase their likelihood of employment by engaging participants. Through discussion and practice, participants will become acquainted with these and other workforce readiness concepts such as completing the onboarding process, satisfying job performance standards, and managing personal finances. They will also learn how to prepare a resume, cover letter, and thank you letter, conduct job searches, complete online job applications and participate in a mock job interview during class.

Attachment: File #13531 - Backup (13531 : 4/5ths Bid Waiver Transition, Inc.,)

Career Exploration and Job Placement

Participants are assigned a Placement Specialist who works with them to explore career options, review their resumes, contact corporate employers, and schedule job interviews. The Placement Specialist then determines whether additional occupational skills training is necessary should a client wish to pursue employment opportunities in, for instance, the construction, logistics, IT, security, or health care industries. Prior to the interview, the participants will undergo a mock interview with his/her Placement Specialist to practice and tailor responses to the job he/she is pursuing. Participants are expected to meet regularly with their Placement Specialist until they secure employment.

Proactive Coaching and Wrap-Around Services

Our Life Coach will maintain contact with participants from the point of recruitment through job placement and beyond. Staff work with clients to determine and provide critical wrap-around services and support to successfully secure and sustain employment, career advancement, and self-sustainability.

If participants encounter barriers or challenges, they have ready access to key staff for mentoring and/or life coach assistance.

Transition

Changing Lives... One Job at a Time!

Our Process

Participants' on-boarding will consist of completing digital program application and career assessment. Transition primarily uses the My Next Move Career Assessment. My Next Move is designed to help participants understand how a variety of personal attributes (i.e., data values, preferences, motivations, aptitudes, and skills) impact their potential success, satisfaction with different career options and work environments.

After each participant completes their application and career assessment, they will receive instruction in an orientation session prior to meeting their assigned Placement Specialist. The orientation will provide the history of the organization, a review of our programs and services, organization policies/rules and a breakdown of the requirements for participating in the Workforce Readiness Training Program.

Following orientation, each participant will be scheduled for a one-on-one meeting with their Placement Specialist. During this meeting an Initial Assessment (IA) will be completed. The Initial Assessment will offer insight into the employment barriers of each participant (i.e., lack of transportation, valid I-9 documents). In addition, Initial Assessment will shed light into other areas outside of employment that may require much-needed wrap-around services. The Placement Specialist and participant will also begin work on their Individualized Employment Plan (IEP). The IEP is jointly developed by the participant and the Placement Specialist and identifies the participant's employment goals, determines the combination of services needed for the participant to reach employment goals, and is one of the most effective ways to serve individuals with barriers to employment and to coordinate services. Short term and long employment goals including potential educational and job training opportunities serves as benchmarks on the IEP.

Each participant will meet for approximately 4 weeks, twice a week for Workforce Readiness Training Class and once a week for individual meetings with their Placement Specialist. The Workforce Readiness Training Program provides an opportunity for participants to learn how to create a cover letter; thank you letter and resume. In addition, activities such as mock interviews,

work etiquette and everyday job skills are covered during the course. A Financial Literacy component has been added to our program. The goal of this program is to help participants to develop a stronger understanding of basic financial concepts - that way, they can handle their money better.

Following the completion of the Workforce Readiness Training Program participants will begin receiving job referrals and job placement opportunities. Our staff will remain proactively engaged with participants to ensure they succeed in satisfying job performance standards as well as adopting additional life skills to remain financially stable and personally self-sufficient. Transition staff will perform 30-day, 60-day and 90-day follow-ups with participants to track their success or provide additional support. Furthermore, during the client's initial visit they met with the Empowerment Zone Reentry Initiative (EZRI) as part of our "One Umbrella Case Management" program. During this first meeting with a Social Worker, participants talk about additional wrap-around services that they made need outside of employment and job training. If a participant needs therapy or counseling sessions during the "initial assessment," EZRI will schedule follow-up appointments.
